WHY SHOULD I CARE ABOUT YOU?

Ripper 1! Ripper 2! Ripper 3! Ripper 4! Yeah, that's the names of these 4 Sardines from Italy that comprise the wildest freak-beat combo of our our times... **THE RIPPERS!** These mod maniacs have been steadily pounding out trans-world punk rave-ups since 2002 and Slovenly Recordings is proud to present their latest full length hair-shaker of an LP "**Why Should I Care About You?**" Now this ain't no garage-slop here. These cats can play! Possessing the tightest chops of any 60s punks making music today, **The Rippers** literally RIP through 12 speedy blasts of quality, high-octane European rhythm'n'blues. With snot factory vocals, super screwy guitar breaks and a frogs-ass-is-watertight rhythm section **The Rippers** willl have you whipping out the switchblade comb from your back pocket and threatening your algebra teacher.
